

Solid Door Reach-In Freezers

Model Numbers: CFD-1FF, CFD-2FF, CFD3FF

PARTNEZ REFRIGERATIONTM

offers standard features like door locks, factory-installed casters, copper-tubed evaporators and condensers, compressors from world leading manufactures in every refrigeration unit. See how PARTNEZ REFRIGERATIONTM's simple solutions can enhance the cold storage options in your restaurant!

FEATURES

Easy-Access Doors

The CFD Series doors utilise a self-closing design when open to less than 90° so there's no risk of energy or temperature loss. Open the doors over 90° and they are designed to stay. Perfect for loading and retrieving large items.

Stainless Steel

The CFD Range is built for foodservice professionals. Stainless steel fronts and sides keep the equipment looking their best. Stainless Steel inner floors have coved corners for easy cleaning.

Precision Refrigeration

The bottom mount compressor unit is controlled by a Carel solid-state thermostat with a digital display. The Embraco compressor is switched through an auxiliary contactor, to increase the life of the Carel controller.

CFD-1FF

CFD-2FF

CFD-3FF

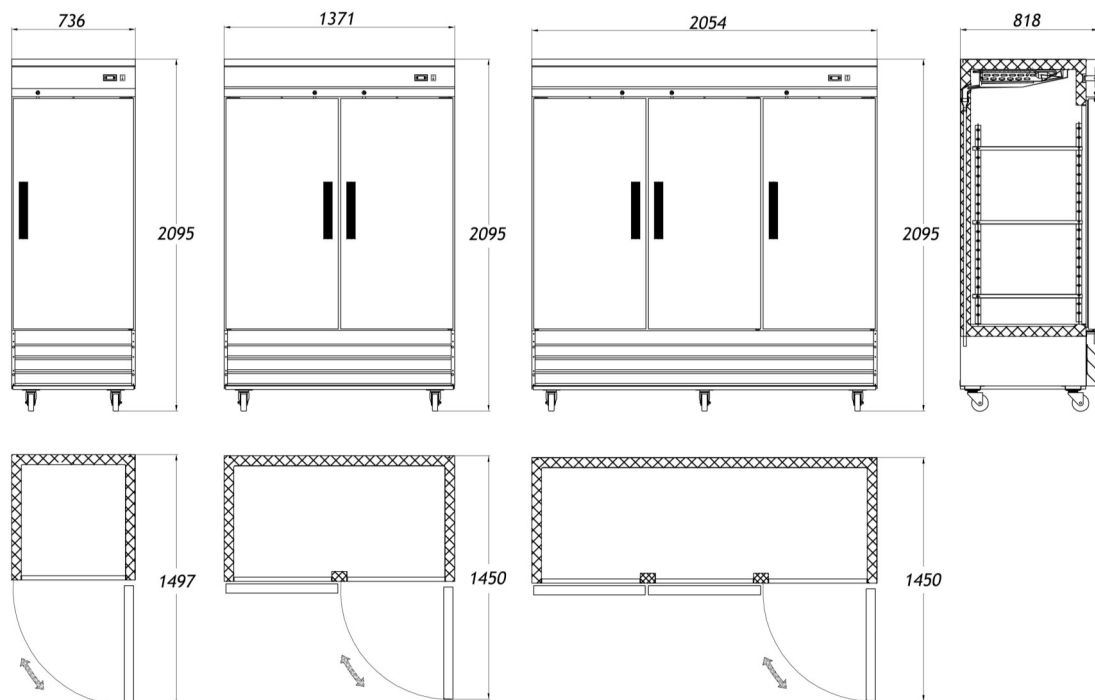

Features at a Glance:

- Stainless steel series 430 exterior doors, fronts & Sides
- Stainless steel interior floor with coved corners
- Stucco aluminium back panel
- Recessed handles with ergonomic grip
- Self closing hinged doors with 90° stay open feature
- LED digital temperature display
- Illuminated interior
- Factory installed PVC coated adjustable steel shelves
- Door locks and keys for loss prevention
- Automatic defrost
- Removable door gaskets to allow cleaning
- Temperature range -18° to -22° C
- Standard 100mm industrial casters / front locking
- 60mm Energy-efficient polyurethane insulation
- Utilizes environmentally friendly R-404A refrigerant
- Shelves hold full size 2/1 Gastronorm trays
- Bottom mounted compressor for cooler running and ergonomic shelf positioning
- Door activated evaporator fan switches for increased energy efficiency
