

## Sandwich Prep Refrigerators

**Model Numbers: SCL1, SCL2-12, SCL2-16, SCL3**

### PARTNEZ REFRIGERATION™

offers standard features like cutting boards, factory-installed casters, copper-tubed evaporators and condensers, compressors from world leading manufactures in every refrigeration unit. See how PARTNEZ REFRIGERATION™'s simple solutions can enhance the cold storage options in your restaurant!

## FEATURES

### Full-Length Cutting Board

Each ORFORD COMMERCIAL Sandwich Prep refrigerator is supplied with a full length oversized cutting board. This durable, sanitary surface is the ideal surface for preparing sandwiches, wraps and other dishes. The cutting board is easy to work on and easy to remove and clean.

### Stainless Steel

The SCLs are built for foodservice professionals. Stainless steel fronts, sides and tops keep the equipment looking their best. Stainless Steel inner floors have coved corners for easy cleaning.

### Precision Refrigeration

The rear mount compressor unit is controlled by a Carel solid-state thermostat with a digital display. The Embraco compressor is switched via an auxiliary contactor, reducing the workload and increasing the life of the Carel controller.

### Features at a Glance:

- Includes 1/6 size pans
- Compartment barrier prevents food spillage into storage area
- Cold air diffuser beneath ingredient rail
- Full-Length cutting board
- Stainless steel series 430 exterior doors, fronts & Sides
- Stainless steel interior floor with coved corners
- Recessed handles with ergonomic grip
- Self closing doors with over 90° stay open feature
- Factory installed PVC coated adjustable steel shelves
- Removable door gasket to allow cleaning
- Standard 100mm industrial casters / front locking
- 60mm Energy-efficient polyurethane insulation
- Utilizes environmentally friendly R-134A refrigerant
- Door activated evaporator fan switches for increased energy efficiency
- Stucco aluminium back panel
- Automatic defrost and hot gas water disposal
- The equipment is intended for use in an area where the environmental conditions are controlled and maintained such that the ambient temperature typically does not exceed 30°C.
